

## How Create a Communication in Slate

This document will cover how to quickly create a Communication in Slate.

The screenshot shows the Slate user interface. At the top, there is a blue navigation bar with the 'slate' logo on the left and a search bar on the right. Below the navigation bar is a red banner with the text: "You are accessing a **TEST ENVIRONMENT** of Slate that is for testing purposes only." Below this banner, the user is greeted with "Welcome, Culen." and a notification: "You have accessed Slate from 1 computer in the past 72 hours. [Details](#) [Supervised Login](#)". A large blue banner in the center reads "Introducing Slate Launchpad for All" and "Register to attend a four-day, in-person, comprehensive back-to-basics training. Next Launchpad is next week in New Haven, Connecticut!". Below this banner is a grid of social media posts from various users. At the bottom of the page, the text "Technolutions Slate (The University of North Carolina at Chapel Hill)" is visible on the left and "MENU" on the right. A yellow arrow points to the "New Mailing" button in the navigation bar.

- Click the "New Mailing" button at the top of your screen

You are accessing a **TEST ENVIRONMENT** of Slate that is for testing purposes only.

- This prompt will allow you to edit the Sender, Recipient, Subject, and Body of your communication. If you are anticipating that merge fields will be added to your email, you can surround the name of the merge field with double curly braces `{{}}`. Once a corresponding recipient list is added via query or an uploaded spreadsheet, these values will be populated. Merge fields can be placed in the Reply To, Sender, Recipient, CC, Subject, and email body. Click Save to finalize your changes.
